

## REMARKS

The present Amendment is responsive to the Notice to Comply mailed February 9, 2005, which identified certain errors in the raw sequence listing submitted. Applicants have amended the sequence listing so that it conforms to 5 the requirements cited on the Notice. Namely, Applicants have added application identification information unavailable at the time of filing, have added the required blank field <220>, and have added the appertaining blank line separators identified in the error report.

A clean copy of the sequence listing has been provided by the substitute 10 sheets in Appendix A, and a copy of an error-free report obtained from the USPTO Checker program is provided in Appendix B. A new diskette (2 copies) is being provided herewith containing a copy of this amended sequence as well as the original sequence.

I hereby state that the substitute copy of the computer readable form, 15 submitted in accordance with 37 CFR 1.825(b), is the same as the amended Sequence Listing.

I hereby state that no new matter has been added by this amendment.

Early examination on the merits is respectfully requested.

Submitted by,
